Professional Summary

Cloud Support and IT Support professional with 1+ year of experience monitoring cloud infrastructure, resolving incidents, and providing L1/L2 technical support across Windows, Linux, and AWS environments. Skilled in Active Directory, Office 365, ServiceNow incident management, network troubleshooting (DNS, DHCP, TCP/IP, VPN), and cloud resource monitoring using AWS EC2, S3, IAM, and CloudWatch. Consistently met SLA targets while maintaining high customer satisfaction through root cause analysis, clear documentation, and cross-functional collaboration. Seeking to bring strong troubleshooting, ITIL-aligned incident management, and cloud support expertise to a Cloud Support / IT Support Engineer role.

Technical Skills

- **Operating Systems:** Windows Server, Windows 10/11,
- **Cloud & Virtualization:** AWS (EC2, S3, IAM, CloudWatch, VPC), Microsoft Azure, Azure AD, VMware
- **Identity & Collaboration:** Active Directory, Azure Active Directory, Office 365, Outlook, Exchange
- **Networking:** TCP/IP, DNS, DHCP, VPN, LAN/WAN, Wi-Fi, Network Troubleshooting
- **ITSM & Tools:** ServiceNow, Incident Management, Problem Management, Change Management, ITIL Framework
- **Support Skills:** Help Desk Support, Service Desk, Remote Desktop Support, Customer Support, Infrastructure Support
- **Other Tools:** MS Excel & Reporting, Patch Management, Software Installation & Upgrades

Professional Experience

Genpact

Process Associate – Cloud & IT Support

Hyderabad, India

Duration: 1 Year 5 Months

- Provided Level 1/Level 2 technical support to end users via phone, email, chat, and remote desktop tools, resolving hardware, software, OS, and application issues within defined SLA timelines.
- Monitored cloud infrastructure and applications on AWS, tracking system availability and performance using CloudWatch to proactively identify and resolve service disruptions.
- Managed EC2 instances including provisioning, configuration, troubleshooting, and performance monitoring to support production workloads.
- Administered IAM user creation, role-based access control, and permission management to enforce least-privilege security policies.
- Configured and maintained S3 buckets for secure data storage, backup, and retrieval, ensuring data integrity across environments.
- Assisted with VPC configuration, subnet management, and security group troubleshooting to support cloud network connectivity.
- Performed Linux and Windows server administration, including user account management, password resets, patching, and system upgrades.
- Managed user identities and access through Active Directory and Azure AD, supporting Office 365 provisioning and Outlook/Exchange mailbox issues.
- Resolved network-related incidents involving DNS, DHCP, TCP/IP, VPN connectivity, and LAN/WAN issues for end users and remote staff.
- Created, updated, and resolved 100+ incidents and service requests monthly using ServiceNow, consistently meeting SLA compliance targets.
- Conducted root cause analysis for recurring incidents, documented resolutions, and maintained knowledge base articles to reduce repeat tickets.
- Escalated complex technical issues to L2/L3 engineering teams while ensuring continuity of communication and timely resolution.
- Followed ITIL best practices across Incident, Problem, and Change Management processes to maintain service stability.
- Configured desktops, laptops, and printers, and supported software installations, upgrades, and patch deployment across the environment.
- Collaborated with infrastructure, application, and cross-functional teams to troubleshoot and resolve technical issues, contributing to improved first-call resolution rates.

Project

Application Monitoring & Incident Management Support

Environment: AWS, CloudWatch, Linux, ServiceNow

- Provided operational support for cloud-hosted applications by monitoring system health, analyzing alerts, and ensuring uninterrupted business operations.
- Performed daily health checks and monitoring activities, investigating application alerts and service disruptions to minimize downtime.
- Supported user access and permission-related requests, assisted in incident resolution and escalation management.
- Prepared operational reports and incident documentation, and collaborated with infrastructure and application teams to maintain service availability.

Certifications

- Cloud Infrastructure Analyst – NASSCOM (Jun 2026)
- IT Technical Support – NASSCOM (Jun 2026)
- Cloud Security Analyst – NASSCOM (Jun 2026)
- AI DevOps Analyst – NASSCOM (Jun 2026)
- AI Data Engineering Analyst – NASSCOM (Jun 2026)
- QA Testing – LiveTech
- Selenium WebDriver – LiveTech

Education

B.Sc. Computer Science

2022

Pragathi Modern College, Andhra University, Andhra Pradesh

Additional Information

- **Languages:** English, Telugu
- **Core Strengths:** Strong analytical and root-cause troubleshooting ability, clear technical communication with end users and cross-functional teams, ability to work under SLA pressure, fast learner on new cloud and ITSM tools.
- **Availability:** Immediate joiner, open to relocation and hybrid/remote support roles.

Personal Details

Name	:	G. Rajesh
Date of Birth	:	8th September 1997
Father's Name	:	G. Lakshmana Rao
Nationality	:	Indian
Gender	:	Male
Address	:	D No 13-15-33/E, Bethani Peta, Bhimavaram, W.G. Dist, Andhra Pradesh - 534201

Declaration

I hereby declare that the information presented above is true to the best of my knowledge and belief.

Place: Hyderabad / Bhimavaram
